

Sandhill Crane in Newark, Delaware

Directions:

The pond that the Sandhill Crane is frequenting is located in the northwest corner of the intersection of Otts Chapel Road and Old Baltimore Pike. The pond is accessible by driving north on Otts Chapel, turning left into the Forest Ridge development, and bearing left until you reach the cul-de-sac overlooking the pond.

Park to the right of house #307 to stay out of the way of neighbors coming and going. The owners of #307, the Guos, are very excited to host the crane in their backyard, and their two kids are proud to show off the bird. Neighbors are welcoming, but please respect their privacy.
